while the inquiry by the Mayor has shown that between the Police and Fire Alarm Departments the city has paid Mr. Stringer on vouchers approved by Mr. Thompson about \$20,000 in the past live years, the aggregate is greatly increased by a large amount of private work done urder city supervision. For instance, many banks have private police call boxes, installed under Mr. Thompson's supervision, but at their own expense, and the same is true of nearly all large factories which have private fire alarm boxes, on which they have paid the bill for wiring and installation.
